

EOHI Acquires *Logical Controls Concepts, LLC* to Create *Elite Controls, Inc.* and Add Automation Expertise to their Family of Fluid Power Companies

Houston, Texas – On May 29th, Employee Owned Holdings, Inc. acquired the assets of [Logical Controls Concepts, LLC](#) based in Wenonah, NJ. Logical Controls Concepts will relocate their operations to Houston in the current Hydraquip CSI Mechatronics facility. Logical Controls Concepts joins forces with the HCSI Mechatronics team to form a new company - Elite Controls, Inc.

Founded by Scott Jones in 2005, Logical Controls Concepts has earned the reputation as the world's premier system integrator for [Danfoss PLUS+1™ GUIDE](#) programming. Scott comes from a background in engineering, with a BS in mechanical engineering and MS in Management. He started work in the hydraulics industry in 1991, and founded his successful business based on his ability to create innovative electro-hydraulic solutions and provide dedicated service to clients throughout the entire lifecycle of their equipment.

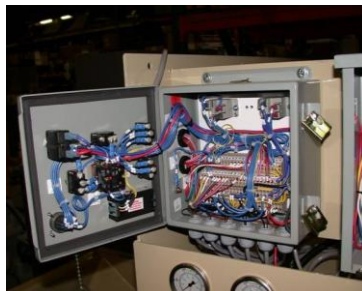

The expertise and industry reputation this team brings, combined with the state of the art 16,000 sq. ft. lab and current Mechatronics team in Houston creates synergies to bring a new level of control technology both for electro-hydraulic and fully electric applications to EOHI customers.

“We are thrilled to introduce Elite Controls, Inc. as a new company in the EOHI family,” said Richard Neels, President and CEO of EOHI. “Scott and his team are the ‘best of the best’ in the industry, and they bring expertise that will take our technology to the next level.”

EOHI is a 100% employee owned company based in Houston, TX with offices in Oklahoma, Louisiana, Florida, Colorado, Arizona & New Mexico.
