

New Product Release

Thicker Tapping Plates Now Available!

Thinner tapping plates have their advantages like compact valve stack height and lower cost, but sometimes they make it difficult to reach between the modules of the valve stack to install the fittings. This is why we are introducing a new line of thicker tapping plates. These tapping plates are 50% thicker which makes assembly much easier. Ordering is easy, simply add 150 to the original part number. [>>View Catalog Pages](#) and select "Tapping Plates".

Operations

Integrated Valve Solutions With Hydraulic Testing

Daman is your source for integrated valve solutions with hydraulic testing.

At Daman, we are constantly looking for ways to improve the services we offer to our customers. Almost a year ago, we were able to reduce supply chain delays with our integrated valve solutions by sourcing valves directly from the manufacturer and completing the manifold assembly at our factory in Mishawaka. Upgrades Coming Soon to Cell E

Early next year, Cell E will say goodbye to their 1995 V515 Mazak vertical machine and say hello to a brand new high-speed Mazak HCN6800. This is the first of many vertical systems that will eventually be replaced. "We plan to phase out

all vertical machines so that we are able to build custom manifolds more competitively," said Garold Kendall, production team leader. [>> Read More](#)

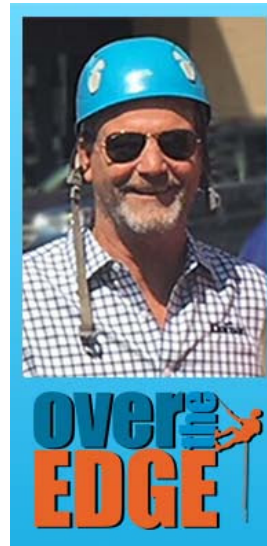

Industry

Daman's Q2 Company Meeting Industry Update

Distributor services manager, Matt Giloth, reports that service level requirements are very high right now because the hydraulic market is very active. To accommodate the uptick in demands Daman has made some improvements, including more competitive pricing at higher quantities, and the on-going development of an ecommerce package for distributors. We are also actively developing new product and service offerings for our distributors, which we will release to the market in the next few months.

Service Award

Thank you Rich McIntyre for your 20 years of service to Daman Products! [>>Read More](#)

Larry Davis is Going Over The Edge

On October 5th, Larry Davis, CEO Daman Products, is going to stand on the roof of the Jefferson Center building in downtown South Bend, step over the edge, and rappel 108 feet to the ground! Why you ask? Because he is trying to help end youth homelessness in St. Joseph's County, and he needs your support to reach his goal of \$15,000.
