We Provide Solutions

A Regal Brand

REGAL

We Listen...

Define your critical application and business needs, and we'll help you determine the right path to success.

and **Provide Solutions.**

We've got a solid track record of helping our customers achieve the best solution to even the most perplexing applications. We're eager to be your partner.

Pump Drives

Our new modular design can be configured and shipped to meet your application needs. It's built tough to provide outstanding performance, and

backed by our responsive Engineering and Customer Service Teams to give you the leading pump drive solution.

Features

- Quick Ship – Modified Standards
- Patented Modular Design
- Compact Package Size
- Cast Iron Housing
- AGMA Class 10 Gearing
- One-Piece Gear and Shaft Design
- Wide Range of Ratios
- Patented Wet Spline Connection; Patent No. 7,152,711
- Drop-in Replacement for Most Applications

Available Options

- Pump Pads and Spline Adapters
- Available in SAE and DIN Standard
- Overhung Load Adapters
- Oil Circulation Systems

Applications

- Construction
- Agricultural
- Offshore Oil
- Forestry
- Marine Decking
- Material Handling
- Railway Maintenance

Lectric Drive

Pump Drive to Electric Motor System

Lectric Drive is a joint venture between Regal companies Durst and Marathon Electric. It is an economical, space-saving alternative for mounting pump drives directly to electric motors. Lectric Drive is a game changer that makes the conventional

C-Face Motor Adapter and external coupling approach obsolete.

Durst will work with your team to develop a completely assembled system delivered and ready for installation.

www.durstdrives.com/lectric-drive/

Advantages

- Single-Source Supplier – Just One P.O. and One Bill
- Paired Compatibility to Application Needs
- Pre-assembled – Delivered Ready for Installation
- One Point of Contact
- Complete System Warranty

Benefits

- Simplified System – Only 2 Parts
- Smaller Package Size – Up to 20" Shorter
- Reduced Weight – Hundreds of Pounds per Install
- Reduced Maintenance – No Coupling to Repair or Replace
- Reduced Cost – Save Hundreds per Install

Application Specifications

- Supports 200 – 1,000 Horsepower Electric Motors
- Designed for 440 and 5000 Series Frames
- Compatible with Most Durst Pump Drives

Motor Specifications

- TEFC and Explosion Proof
- Cast Iron Construction
- Corrosion-Resistant Hardware
- Epoxy Paint
- 230, 460, 575 Volt 50/60Hz
- 200 – 1,000 Horsepower

Pump Drive Specifications

- One- to Eight-Pad Configuration
- Modular Design
- Wide Selection of Gear Ratios
- Torque Rating: 1,040 – 2,150 ft-lbs

Transfer Cases

Our new design is built tough to provide outstanding performance and is backed by our responsive

Engineering and Customer Service Teams to give you the industry-leading transfer case solution.

Features & Benefits

- Cast Iron and Aluminum Housings
- Wide Range of Ratios
- AGMA Class 10 Helical Gearing
- Longer Coupling Life from our Patented Wet Spline Connection; Patent No. 7,152,711

Options

- Lube and Cooling Systems Available
- Differentials
- Disconnects
- Inputs (Hydraulics, Mechanical)
- Shifting (Pneumatic, Hydraulic, Mechanical)
- Yokes and Flanges
- Split Shaft PTO
- Two Speed
- Single Speed

Applications

- Construction
- Railway Maintenance
- Forestry
- Agriculture
- Oil and Gas
- Specialty Trucks

Transmissions

- Detachable bell housing for easy fitting of alternative engines
- Oil-immersed multi-plate clutches for smooth engagement
- Output shaft coupling suits Dana 1410 series cardan shaft
- Easy-to-service external-mounted, weatherproof hydraulic solenoid valves
- Accommodates modified standard C6 morse gear selector
- Single- or two-speed configuration
- CG replacement for airport Ground Support Equipment (T72)
- Converter-driven shuttle transmissions
- PR1 single-speed FIR
- PR2 two-speed F/R
- Mechanical or electric controls
- Three- and four-speed mechanical transmission hookups

Parallel Shaft Gear Drives

- Compact, high-strength cast iron housing
- Spur and helical high-capacity gearing
- Tapered rolling bearings
- Double-lip spring-loaded oil seals
- Reducer or increaser application
- Hollow shaft or hydraulic flange mounts available

Worm Gear Drives

Traditional Worm Gear Drives

- Right or left hand bronze gearing
- Rugged cast iron housing
- Double-lip spring-loaded oil seals
- Tapered roller bearings
- Choice of mounting arrangements

TRADITIONAL WORM GEAR DRIVES			
MODEL	RATIOS	OUTPUT TORQUE RATINGS	
		540 RPM	1,000 RPM
A21	5:1	1,724	1,307
A21	10:1	2,239	1,518
A21	20:1	2,188	1,664
A26	25:1	10,667	8,151
A26	50:1	10,209	7,796

Modular Worm Gear Drives

- Advanced modular design
- Right or left hand bronze gearing
- Rugged cast iron housing
- Double-lip spring-loaded oil seals
- Tapered roller bearings
- Choice of mounting arrangements
- Driven mechanically (chain/sprockets) or with hydraulic motor (SAE 2 or 4 bolt)
- Patented output hollow bore design (US 7,037,203 B2)
- Hollow Bores: 2.00, 1.75, 1.50, 1.25, 1.00

MODULAR WORM GEAR DRIVES			
MODEL	RATIOS	OUTPUT TORQUE RATINGS	
		540 RPM	1,000 RPM
A1126	25:1	10,667	8,151
A1126	50:1	10,209	7,796
