

As a 100% employee-owned company,
we are personally invested in the success
of our customers and the company.

CONCEPT CREATION

From the “back of an envelope” idea to detailed military specification requirements, we partner with Customers to understand their needs and solve their challenges. Our focus on quality and innovation creates a competitive advantage for our Customers.

ENGINEERING AND DESIGN

With over 50 years of experience providing a multitude of systems, SIT can overcome rigorous requirements for demanding applications. Our engineers are experts in structural and mechanical design, as well as fluid power, electrical and automation systems. We use state-of-the-art tools to provide:

- ~ 3D modeling
- ~ FEA analysis
- ~ Stress and shock analysis
- ~ Computational fluid dynamics
- ~ Enterprise data management

FABRICATION ASSEMBLY AND TESTING

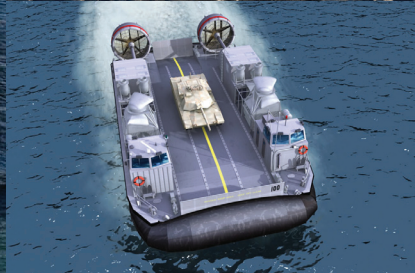

SIT's on-site fabrication (ISO 9001 Certified) offers Customer's assurance of quality control and increased flexibility for lead time and delivery.

COMPLETE LIFE-CYCLE SUPPORT

We provide international support throughout the entire life-cycle of our systems including installation, commissioning and post-delivery service.

As an 100% employee-owned company,
we are personally invested in the success
of our customers and the company.

MILITARY EXPERIENCE

SIT-Huber have successfully delivered systems in over 30 years of military work.

SCOPE OF SUPPLY

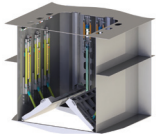

We have 50,000 sq feet of manufacturing space between our fabrication facility in New Orleans, LA and assembly facility in Houston, TX. Our team has significant experience with a variety of materials, and can provide MIG, TIG and Flexcor welding. Both facilities are ISO 9001:2015 Certified, with capability for remote testing.

OUR LOCATIONS

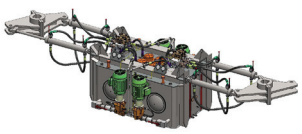

PROJECT PORTFOLIO

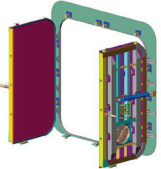

From hydraulic, electro-hydraulic and fully electric systems and moveable structures, SIT specializes in complex projects in multiple applications:

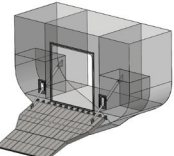

MOON
POOL DOOR

HIGH SPEED
STEERING SYSTEM

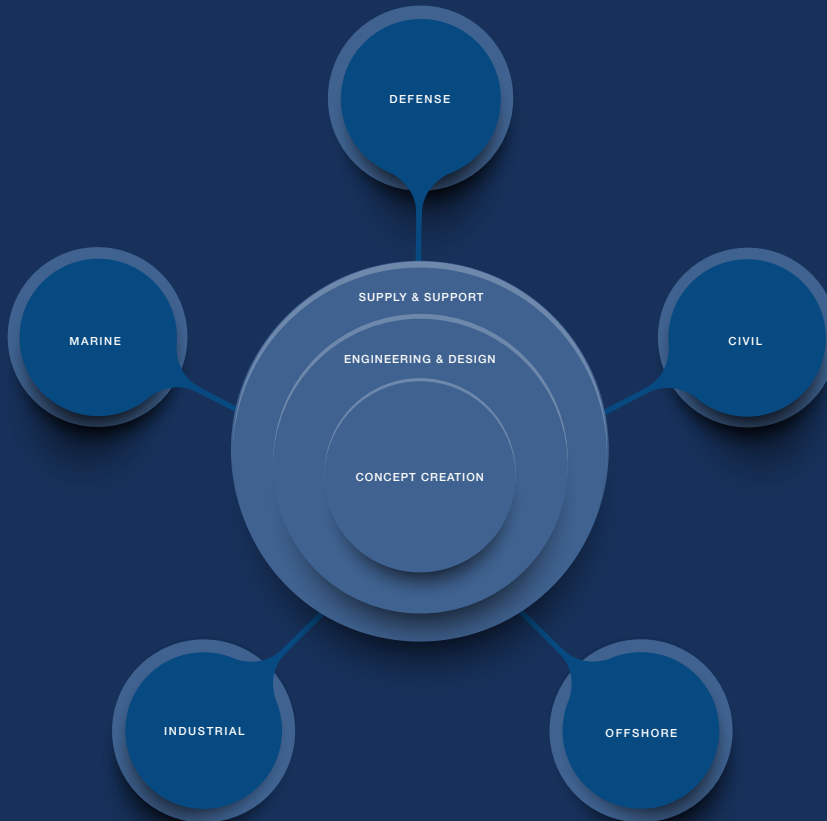

MOVABLE DOORS

STERN GATE

WITH OUR CORE OF EXPERTISE, SIT HAS ACCOMPLISHED
PROJECTS FOR A LARGE VARIETY OF INDUSTRIES.
