

# Hydraquip, Inc. Product Line Card Colorado

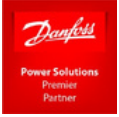

## Danfoss Aeroquip

Hose & fittings, hose kits, quick-disconnects

## Hydro Leduc

Fixed displacement piston pumps & motors

## Danfoss Drives

Editron, PLUS+1®, VACON®, VLT®

## Hydrotechnik

Pressure test points, gauges, transducers, transmitters, flow meters, datalogging kits

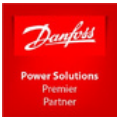

## Danfoss Editron

Electric converters & motors

## Lincoln Industrial

Automatic lubrication systems, mobile & industrial system design, system installation & start-up, service & repair

## Danfoss Power Solutions

Open & closed circuit products, directional, proportional, servo, pressure, flow control valves, LSHT motors

## Regal Rexnord (Durst)

Pump drives, bevel drives, gearboxes, worm drives

## Accumulators, Inc.

Bladder, piston & diaphragm accumulators

## Daman

Standard & custom hydraulic manifolds, DPS ICS

## Rotary Power

Radial piston motors

## DMIC

Ball valves, check valves, flow controls, hydraulic accessories

## Torque Hub (Fairfield)

Planetary wheel, spindle & shaft output final drives, mobile & industrial gearboxes

## Emmegi

Standard & custom heat exchangers

## Voith

Drives & transmissions, braking systems, connection components

## Geartek

Gear pumps, motors, specialty engineered units

## Wandfluh of America

Screw-in cartridge valves, proportional valves

**Anchor Fluid Power**  
Hydraulic flange fittings,  
hydraulic ball & check valves

**MiniBooster**  
Hydraulic pressure intensifiers

**Brennan**  
Hydraulic adapters & fittings

**Rineer**  
Vane crossing vane high torque  
vane motors

**HBC Radiomatic**  
Radio remote controls

**Ross**  
Valves, regulators, filters &  
lubricators

**Humphrey**  
Linear actuators & valves,  
air-piloted & vacuum piloted  
valves, solenoid valves

**Schroeder Industries**  
Hydraulic & lube oil filters, filter  
elements & systems, diesel fuel  
filtrations

**JARP**  
Custom cylinders, severe  
duty applications

**Stucchi**  
Flat face, multi-port, threaded  
& specialty couplers

## Service and Repair

Our Authorized Danfoss Service & Repair Center delivers top-tier repairs using OEM parts and in full compliance with manufacturer specifications. In addition to Danfoss, we are an authorized repair center for several other leading brands—servicing pumps, motors, actuators, valves, pump drives, gearboxes, and accumulators.

Our facility is equipped with advanced test stands capable of both open- and closed-circuit testing up to 150 HP and 5,000 PSI. We offer comprehensive diagnostics including pressure compensation, load sensing, horsepower limiting, dynamic motor load testing, and real-time data acquisition—ensuring your components are restored to peak performance with precision and reliability.
